Personal Statement

I am a third-year Ph.D. student in the Department of Electrical and Computer Engineering at Stevens Institute of Technology, advised by Prof. Hao Wang. I received my Master's degree in Computer Science from Rutgers University and my Bachelor's degree in Computer Science from the University of Liverpool. My research interests lie in machine learning generalization under distributed and dynamic scenarios, with a focus on Continual Learning and Federated Learning. I develop learning algorithms that improve model robustness, adaptability, and knowledge retention across heterogeneous clients and evolving tasks.
